

My CIS

Your paperwork in
safe hands

You can count on PayStream

We've developed My CIS for self-employed contractors working in the building trade. If you don't know about it already, CIS stands for Construction Industry Scheme - it's a special system that HMRC has set up for the construction industry.

With My CIS, we handle all your paperwork for you, so you can continue to have the freedom and flexibility of working under your own name, but without the worry of HMRC's many rules and regulations. We invoice end clients on your behalf, produce your pay advice and pay you directly - and for a modest fee we can even sort out your annual tax return.

Is it right for me?

My CIS could well be the best option if you:

- work in the construction industry
